#### Mediatic Conseils: training provider for radio sales professionals

Digital Project Manager - Work-Study / Fixed-Term Contract

September 2025 - December 2026 (France)

- Designed and developed a **multimodal RAG system** to leverage Mediatic Conseils' cloud knowledge base (PDFs, videos, audio)
- Defined the architecture and built the database with **Supabase** (SQL, schema, storage, indexing logic); implemented ingestion pipelines
- Tested and optimized **retrieval strategies** (hybrid / API / local); performed **vector and semantic relevance analysis** and **specialized fine-tuning**

#### Enjoy 33: Bordeaux-based commercial radio station (small business)

Web Developer - Work-Study

January 2025 - July 2025 (Bordeaux)

- Redesigned the radio station's website and added new features: audio player, client directory and Graph API integration
- Created a detailed persona to better target the station's audience
- Implemented the SEO strategy (tags, structure, titles, descriptions) and configured push notifications via OneSignal

#### MaxSea: navigation software development and sales (SME)

UI/UX Designer - Internship

Feb 2023 - Jun 2023 (Bidart)

- Onboarded, trained and collaborated within a **UI/UX team**
- Designed software interface mockups
- Conducted **competitive analysis** of gamification-focused applications
